TWINKAL SIKRI

Right to work in UK & EU (Pre-settled status, Italian citizen)
Tipton, United Kingdom ⋄ +44 7454490321 ⋄ twinxvii@gmail.com

PROFILE

Computer Science graduate and Cybersecurity MSc student with full-stack development experience across Java, C#, and modern JS frameworks, backed by a strong foundation in algorithms, design patterns, and software engineering practice.

EXPERIENCE

Intern, Software Engineer – Microtel S.r.l, Morrovalle, Italy Oct 2024 - Jan 2025

- Engineered a full-stack network monitoring platform from scratch (ASP.NET Core MVC, C#), integrating Zabbix, Ninja, UniFi, and Omada.
- Built real-time Email/Telegram alerting and per-client dashboards; released and deployed internally.

SKILLS

Languages	Java, C#, Python, C, Haskell, JavaScript
Back-end	Spring Boot, ASP.NET Core MVC, Entity Framework, REST/SOAP APIs
Front-end	Angular, Next.js, Node.js, Bootstrap, HTML/CSS
Data / Tools	SQL (MySQL), Docker, Git, JUnit, UML/BPMN
Practices	Agile/Unified Process, Design Patterns, GRASP, CI/CD

EDUCATION

MSc in Cybersecurity Sept 2025 - Dec 2026
Lancaster University, School of Computing and Communications
Grade (current): Distinction

BSc (Hons) in Computer Science Sept 2021 - Apr 2025
Università degli Studi di Camerino

PROJECTS

Custom Monitoring Dashboard (Internship) Oct 2024 - Dec 2024

- Built a back-end monitoring service in ASP.NET Core MVC, cross-indexing data from Zabbix, Ninja, Omada and UniFi into one interface.
- Developed regex-based naming conventions for cross-referencing multi-source API data.

Java Web Application Oct 2023 - Feb 2024

- Built a full-stack tourist/guide platform using Spring Boot and Angular, applying Unified Process and UML standards.

Risk Management via Monte Carlo Simulation Dec 2025

- Built a Python-based Monte Carlo risk model using NumPy and Matplotlib for probabilistic risk analysis.
